

MASTER OF SCIENCE IN ADULT EDUCATION

The Master of Science in Adult Education degree is designed for individuals who desire to become effective adult educators and change agents within local, regional, national and international communities. Graduates are prepared to work as teachers, program developers and evaluators, or administrators in order to enrich the learning capabilities of adults through educational programs in various settings. A signature component of our program is that curricular experiences emphasize the historical, philosophical, and socio-cultural foundations of adult education with a special focus on the Black Diaspora.

Ranked #13 Adult Education program nationwide by Graduateprograms.com!
