 = Response is required

INTRODUCTION

This is the first short survey, which is completely anonymous*. Focus here on issues and needs that will make us a more efficient and effective unit.

Thank you for your participation in this process.

Miriam Wagner

DIRECTIONS IN RESPONDING TO EACH QUESTION

*This short survey is shared through a public URL, and we can access only your responses. Your identity is not accessible by the end user, and is also not stored anywhere. Your responses are entirely anonymous, unless you choose to identify yourself in your response.

Your Vision: The reality is that institutions, and those who govern the institutions today, need to discover methods to navigate current global challenges and opportunities. This is essential to sustain the heritage of institutions as places that catalyze the potential of ALL learners for our collective future. This is our collective responsibility.

 1. Share with me YOUR vision on how we might address this collective responsibility. What's working? What's missing? Please address the question based on your roles as faculty, staff...

No answer specified

 2. Tell me more about what's missing. How would our SCHOOL operate more efficiently if the missing 'pieces' were put in place?

No answer specified

Thank you for completing this survey!
