Total Credit Hours: 120
MATH 111/112; CHEM 106/116; CHEM 107/117, PHYS 225/235 – Recommended for students who may wish to pursue graduate work

The environmental studies curriculum is a combination of interdisciplinary courses in which students develop their creativity, analytical skills and imagination by discovering alternative ways of applying basic concepts of science, coupled with their liberal education to environmental problem solving and sustainability issues. The concentration incorporates breadth and depth in interdisciplinary courses in which students learn to integrate analytical perspectives in a focus area of student’s interest.
