The Mechanical Engineering master's program provides advanced level study in distinct areas of specialization such as mechanics and materials, energy and thermal/fluid systems, design and manufacturing, and aerospace. The program prepares the graduate student for doctoral level studies or for advanced mechanical engineering practice in industry, consulting or government service.

**Additional Admission Requirements**
- Unconditional admission requires an engineering undergraduate degree from an ABET accredited mechanical engineering program

**Program Outcomes**
- Students will develop advanced critical thinking skills by solving complex and challenging problems in mechanical engineering, mathematics and the physical sciences
- Students will communicate effectively by conveying their ideas, both orally and in written form, in accordance with acceptable published standards
- Students will demonstrate their ability to perform research by generating a thesis of an original idea and publishing technical papers under the guidance of an academic advisor
- Graduates will engage in professional activities by attending conferences, presenting papers and serving various roles in professional organizations

**Degree Requirements**
Total credit hours: 30
- Core courses (9 credits): MEEN 601, 643, 716
- Systems Engineering Core (9 credit hours): SYEN 605, 710, 715
- Systems Engineering Electives: Take 9 credit hours from: MEEN 614, 619, 652, 669, 680, 815
- MATH electives (3 credits): Take 3 credit hours from MATH 650, 651, 652

2021-2022
