Preliminary Salary Equity Study Report Response Vice Chancellor for Human Resources Ms. Linda McAbee and Interim Vice Provost for Academic Affairs and Undergraduate Programs/Assistant Vice Chancellor for Institutional Research Dr. G. Scott Jenkins

Vice Chancellor McAbee and Vice Provost Jenkins presented an acknowledgment and response to the 2014 Resolution on the Preliminary Report of the Faculty Salary Equity Committee. Key milestones accomplished and targeted were provided. The University has purchased Peoplefluent’s “PayStat”, a software used to complete compensation analysis statistical tests, in compliance with the Office of Federal Contract Compliance Programs (OFCCP) requirements for pay equity studies. The statistical analysis will test for compliance with the Equal Pay Act.

Definitions of (1) equal pay, (2) disparate treatment, and (3) disparate impact were discussed. After some discussion, it was agreed that this study will address not only equal pay, but disparate treatment and disparate impact as well. The study will include all tenured and tenure track faculty. Department chairs are excluded from the analysis.
Timelines and action plans for next steps were discussed. It was noted that project team collaboration (members of the Faculty Salary Equity Committee/Division of Human Resources and the Division of Institutional Research) scheduled for March 3-12, 2014 will be pushed back a week due to the Spring break. Other target dates may be affected as well. A final report was scheduled for submission to the Provost and Chancellor during the week of March 24, 2014; however, will be adjusted based upon the rescheduled first meeting of the collaborative project team.

Dr. Sims stated that Senators will be informed as the process unfolds. Senate Faculty Salary Equity Study Chair Roberto extended an invitation to Senators to join the Faculty Salary Equity Committee.

Dr. Sims thanked Ms. McAbee and Dr. Jenkins for their report.
