COMMENCEMENT

THE GRADUATE COLLEGE CEREMONY
FRIDAY, DECEMBER 15, 2023, 9 A.M.
Steven Tanger Center for the Performing Arts
300 North Elm Street, Greensboro, NC 27401

North Carolina Agricultural and Technical State University
NEVER EVER UNDERESTIMATE AN AGGIE.
NEVER EVER UNDERESTIMATE AN AGGIE.
December 15, 2023

Dear Class of 2023:

On behalf of the North Carolina Agricultural and Technical State University Board of Trustees, faculty, staff and students, congratulations on your graduation from our beloved institution. We are proud of you for reaching this significant milestone and applaud your academic achievements and success.

As chancellor and a proud alumnus of North Carolina A&T, it gives me great pleasure to commemorate this occasion with you. You have faced and overcame many challenges during the course of your college years, and now you can look forward to a vast array of opportunities spread out before you as you embark on the next chapter of your life. Never forget the rich history and traditions of this wonderful university and the support of the faculty, family and friends who have been a source of inspiration to you during this chapter of your personal journey.

Your advanced degree represents countless hours of study and a strong commitment to your passion. You have proven again and again that you possess the grit and determination to achieve success and reach your goals. This accomplishment should fill you with not only immense pride, but also a deep sense of responsibility. This achievement is the beginning of a new chapter in your life. I challenge you to seize the opportunities that lie ahead and commit to make an impact on the world. Today, you join a powerful global community of Aggies that share a common vision to Lead, Create, Discover, Inspire, Dream and Love ... because that’s what AGGIES DO!

We wish you all the best in the days and years ahead as you boldly move forward to improve the world around you and embark on a lifetime of learning and achievement. Remember that greatness should not be measured only by your personal success, but by the lives you enrich along the way.

Sincerely,

Harold L. Martin, Sr.
Chancellor
PRESIDING: Harold L. Martin Sr., Chancellor

PROCESSional .......................................................... “Pomp and Circumstance”
Sir Edward Elgar

MACE BEARER .......................................................................................................................... Scott Harrison
Chair of the Faculty Senate

RESPONSE .................................................................................. “Lift Every Voice and Sing” .......... N.C. A&T Fellowship Gospel Choir
James Weldon Johnson

GREETINGS FROM THE UNIVERSITY ................................................................. Chancellor Martin

GREETINGS FROM THE GRADUATE STUDENT ASSOCIATION ........................................ Tia Pope
President

INTRODUCTION OF SPEAKER ........................................................................... Chancellor Martin

COMMENCEMENT ADDRESS .................................................................................. Woodrow Winchester III
Executive Director of The University of Texas at Austin Texas Engineering Executive Education

PRESENTATION OF CANDIDATES FOR DEGREES ................................................... Tonya L. Smith-Jackson
Provost and Executive Vice Chancellor for Academic Affairs

GRADUATE DEGREES ................................................................................................. Clay Gloster Jr.
Vice Provost for Graduate Research and Dean of The Graduate College

CLOSING REMARKS ................................................................................. Chancellor Martin

THE ALMA MATER ............................................................................... N.C. A&T Fellowship Gospel Choir

RECESSIONAL .............................................................................. “Crown Imperial Coronation March”
William Walton
Woodrow W. Winchester III, PhD, CPEM, serves as the executive director of The University of Texas at Austin Texas Engineering Executive Education (TxEEE). In his role as executive director of TxEEE, Winchester also oversees the management of the Petroleum Extension (PETEX) and the Health and Safety Training Center (HSTC) of the Cockrell School of Engineering. He is a Certified Professional Engineering Management Professional (CPEM) with over 10 years of technical program and project management experiences.

Winchester also currently serves as the inaugural director of Diversity, Equity, and Inclusion (DE/I) for the American Society for Engineering Management (ASEM) and previously served as ASEM’s Director of Professional Development & Continuing Education. Winchester is a member of the second cohort of the National Science Foundation-sponsored IAspire Leadership Academy.

A proven thought leader in advocating for and advancing the development of more equitable, inclusive and just approaches to technological innovation and management, Winchester was recently recognized by the Cockrell School of Engineering at The University of Texas at Austin for his contributions to equity in engineering. He received his B.S. and M.S. in Industrial Engineering and his Ph.D. in Industrial and Systems Engineering, all from North Carolina A&T State University. Distinguished University Professor Celestine Ntuen was his doctoral advisor. Winchester also holds a professional certificate in Foresight from the College of Technology, University of Houston.
Established in 1891, under the Second Morrill Act of 1890, North Carolina Agricultural and Technical State University is a land-grant, doctoral, high research university. The Second Morrill Act expanded the nation’s system of land-grant universities to include a historically Black institution in those states where segregation denied minorities access to the land-grant institutions established by the First Morrill Act (1862).

Throughout its 132-year history, North Carolina A&T has maintained a rich tradition in academics, research and outreach. Today, the university is committed to fulfilling its fundamental purposes through exemplary undergraduate and graduate instruction, scholarly and creative research, and effective public service and engagement. A&T is accredited by the Southern Association of Colleges and Schools Commission on Colleges. An institution of choice for high-achieving students, A&T aspires to be recognized as a preeminent land-grant university.

With an enrollment of 13,885 students (Fall 2022), N.C. A&T is the nation’s largest historically Black college or university (HBCU). A&T awards baccalaureate, master’s and doctoral degrees through the College of Agriculture and Environmental Sciences; College of Arts, Humanities and Social Sciences; Willie A. Deese College of Business and Economics; College of Education; College of Engineering; John R. and Kathy R. Hairston College of Health and Human Sciences; The Graduate College; and the Joint School of Nanoscience and Nanoengineering. The curriculum has been adapted to strengthen science, technology, engineering and mathematics (STEM)—its academic core and foundation—and other disciplines. The university also has moved rapidly to blend its academic and research programs with the needs of society and industry, forming a symbiotic relationship. A&T has advanced in the area of research and for more than a decade, has consistently ranked third in research funding among the 17 institutions that comprise the UNC system. The strength and potential of the research enterprise at A&T is demonstrated by the university’s ability to sustain major programs in nanotechnology, biotechnology, computational science and engineering, energy and environment, information sciences and technology, leadership and community development, logistics and transportation systems, and public health. Notably, the university is home to the prestigious National Science Foundation Engineering Research Center for Revolutionizing Biometric Materials, which specializes in biomedical engineering and nano-bio applications research.

A&T has advanced to the forefront in the area of research and is one of the top-ranking institutions in the University of North Carolina System for sponsored research funding. The strength and potential of the research enterprise at A&T is demonstrated by the university’s ability to sustain major programs in nanotechnology, biotechnology, computational science and engineering, energy and environment, information sciences and technology, leadership and community development, logistics and transportation systems, and public health.

Upon graduating, students join the university’s nearly 70,000 alumni of record who hold (or have held) positions of leadership in industries and communities around the world. Some of A&T’s nationally acclaimed alumni include Henry E. Frye ‘53, former N.C. Supreme Court Chief Justice; Edolphus Towns Jr. ’56, retired U.S. Congressman; Clara Adams-Ender ’61, author and retired Army brigadier general; Alvin A. “Al” Attles Jr. ’60, former NBA player, coach and general manager; Elvin Bethea ’68, NFL Hall of Famer; Ezell Blair Jr./Jibreel Khazan ’63, Joseph A. McNeil ’63, the late Franklin E. McCain Sr. ’63 and the late David Richmond ’10 (degree awarded posthumously), members of the A&T Four/Greensboro Four; Joe L. Dudley Sr. ’62, Dudley Products founder; Rev. Jesse L. Jackson Sr. ’63, civil rights activist and former presidential candidate; Alma S. Adams ’68, U.S. Congresswoman; Dr. Ronald E. McNair ’71, NASA astronaut; and Michael S. Regan ’98, U.S. EPA Administrator.

COSTUME

THE ACADEMIC COSTUME

The academic costume worn today derived from practices originating in the Middle Ages. When European universities were taking form in the 12th and 13th centuries, the scholars were usually clerics as well, and consequently they adopted costumes similar to those of their monastic orders. Cold halls and drafty buildings made caps and floor length gowns with attached hoods a necessity for warmth. Probably because of the costumes’ religious heritage, they remained largely drab until the universities gradually began to pass from the control of the church, whereupon some aspects of the costumes took on brighter hues. Old prints reveal a strong similarity between the regalia worn in early universities and the academic costume worn today.

In light of the nation’s strong English heritage, academic costume has been in use in the United States since colonial times. To establish a standard of uniformity with regard to the practice, an intercollegiate commission was formed which prepared a code for caps, gowns, and hoods which has been adopted by all universities. Originally round, the shape of the cap is now the more familiar mortarboard square - a shape that resembles a scholar’s book. Legend has it that the privilege of wearing a cap was the initial right of a freed Roman slave. The flowing gown has become symbolic of the democracy of scholarship for it covers any dress, which might indicate rank or social strata. The hood not only indicates the type of degree, but also is lined with the official colors of the university from which the degree was obtained.

THE GOWN

BACHELOR – Blue, full cut with long pointed sleeves.
MASTER – Black, long or short sleeves with arc-shaped panel extended for each sleeve.
DOCTOR – Black, with velvet panels on front of gown and three velvet bars on each sleeve. Color of the velvet may be black or distinctive of the field of study.

THE HOOD

BACHELOR – Three feet in length with a two-inch wide velvet.
MASTER – Three and one-half feet in length with a three-inch wide velvet.
DOCTOR – Four feet in length with a five-inch wide velvet and panel at the sides. The lining of the hoods, which is folded out, bears the official colors of the institution from which the degree was received. The color of the velvet is PhD Blue.

Candidates for doctoral degrees at North Carolina Agricultural and Technical State University wear gowns fastened at the neck and hoods draped down the back and the black mortarboard with a gold tassel.

UNITED STATES ARMED FORCES VETERANS

These graduates are wearing white stoles.
The mace, a ceremonial insignia, dates back to ancient Rome to honor heroes and nobility. Maces were later used in the courts of England, during the reign of James I of England as symbols of authority. Today, maces are associated with academic and governmental processions. In academic use, it is the symbol of the college/university as a body of scholars within its own legally constituted authority. The chief faculty marshal carries the mace during all formal academic processions.

A gift from the graduating class of 1961, the mace of North Carolina Agricultural and Technical State University was presented October 24, 1991, during the centennial year celebration. The university’s 42-inch long mace reveals a two-faced sterling silver crowning head or boss with the seals of North Carolina Agricultural and Technical State University and the University of North Carolina on either side. Both university seals rest on a sterling silver etched State of North Carolina seal.

Alternating ebony and ivory solid wood rings that symbolize the university’s African American heritage are located on the mahogany wood shaft. The history and mission of the college/university throughout its 100 plus years of existence are etched on the wooden shaft of the mace between the rings. They represent service to African Americans, the missions of the university’s schools and colleges; scholars; the Greensboro Four sit-in; the Aggie mascot, and sports. The base or terminus (end piece) is a silver-plated cup engraved with a figure of a runner which symbolizes the athletic legacy and forward moving strides of the university.

North Carolina Agricultural and Technical State University’s mace is a result of planning, research and fund raising by the class of 1961. The special designs of the mace represent the joint efforts of the Mace Committee who contacted Emblem & Badge Inc., in Providence, Rhode Island, to craft the mace. Dr. Vallie Guthrie, chair; Dr. Dorothy Alston; Dr. Sullivan Welborne; Dr. William C. Parker; Dr. Basil Coley; Dorothy J. Richmond; Lewis Brandon III; Earnest Sherrod, and members of the class of 1961; and the Class Coordinating Committee were instrumental in the procurement and final version of the mace, which was presented during the October 24, 1991, Founder’s Day Convocation. The mace was carried by the Chief Faculty Marshal (chair or president of the Faculty Senate) at the May 5, 1991, commencement and is utilized at all formal ceremonial occasions for the university.
MASTER’S AND DOCTORAL CANDIDATES

NOWHERE NEAR BEING DONE.
North Carolina Agricultural and Technical State University (N.C. A&T) is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award baccalaureate, master's and doctoral degrees.

North Carolina A&T State University does not discriminate on the basis of age (40 or older), color, disability, sex, pregnancy, gender, gender identity, gender expression, national origin, political affiliation, race, religion, sexual orientation, genetic information, veteran status, National Guard or any other basis protected by law.

North Carolina Agricultural and Technical State University is an AA/EEO employer, and it is an ADA compliant institution; thus, facilities are designed to provide accessibility to individuals with physical disabilities.
ALUMNI OATH

THE NORTH CAROLINA AGRICULTURAL AND TECHNICAL STATE UNIVERSITY ALUMNI OATH

I hereby solemnly pledge allegiance to my Alma Mater in appreciation for the opportunities for development afforded me as a student at North Carolina Agricultural and Technical State University.

I pledge active participation in the North Carolina A&T State University alumni community, which spans the nation and stretches around the globe, where ever I may be. Through association with fellow alumni, I shall forever do my best to uphold the ideals and traditions of my alma mater.

I pledge to exemplify high ideals by rendering positive and dignified service to the community, state, nation, and yes, the world, thus living to bring honor and respect to my alma mater.
