The Master of Science in Technology Management (MSTM) is a degree that provides an academically challenging, value based environment that prepares future leaders of high-tech companies. The program is available online for flexibility and convenience. Thesis and coursework options are available for this degree. Research areas for the thesis option include (but are not limited to): Global Positioning Systems, Information Security, Multiple Phase Aerodynamics, Operational Research, Energy Security & Sustainability, Industrial Hygiene, Industrial Design, Simulation, and Sustainable Construction Practices. The program is extremely helpful to students with a technical background in STEM disciplines who desire to move into managerial and supervisory industrial positions. Academic track individuals will find a good foundation for pursuing a PhD in technology management and other disciplines. This program is also attractive to military personnel who desire promotion or a civilian career.

Graduates will be professional, effective communicators and leaders in supply chain, operations, manufacturing, information technology, construction, and graphics.

For More Information

MSTM Program Coordinator
Dr. Devang Mehta
mehtad@ncat.edu
(336) 285-3109

Program Track Areas
1. Information Technology Management
2. Industrial Management
3. Supply Chain Management
4. Construction Management
5. Graphic Design Technology
6. Environmental Health and Safety

Special Concentration
- Professional Science Master’s in Construction Science and Management

For more information about this concentration, please contact:
Dr. Musibau Shofoluwe
MSTM-PSM Program Coordinator
musibaus@ncat.edu
(336)-285-3130

Scholarly Engagement

Professional Associations:
- Association of Technology, Management, and Applied Engineering (ATMAE)
- Technology Management Education Association
- The Institute of Electrical and Electronics Engineers (IEEE)

Post-Graduation Placement

Graduates of the Technology Management program can continue their education with a PhD degree in Technology Management or other disciplines. North Carolina A&T State University offers a joint doctor of philosophy consortium degree program with Indiana State University. Concentrations include: Construction Management, Digital Communications, Human Resource Development and Training, Manufacturing Systems, and Quality Systems. Many of our graduates continue with doctoral work at universities such as Purdue University, Indiana State University, and others.

Employment Opportunities

Graduates of the program find employment in manufacturing, electronics, graphic design, construction companies, government agencies, and large multinational firms. Employment Opportunities for graduates of the program include: Project Manager, Product Manager, Quality Manager, Purchasing/Sourcing Manager, Supply Chain Manager, Network Manager, Database Administrator, IT Manager, and Senior Business Analyst. Examples of companies that hire our students are John Deere, Cummins, IBM, AT&T, Northrop Grumman, Kiewit Construction, Balfour Beatty Construction, Accenture Consulting, MTV Network, EMC, Nike, and Black & Veatch.
